FAMILY BUSINESS
NATIONAL NFBA ASSOCIATION

March 18, 1993

COUNCIL FOR THE TOBACCO INDUSTRY
900 Third Avenue
New York, NY 10022

Attention: Director

Please send application guidelines for a grant request.

The National Family and Business Association is a non-profit research and educational organization currently working on a research project on the effects of cigarettes on the immune system. A twenty year study on stress conducted at the University of London School of Medicine (released 1992) showed that negative reactions to stress were more destructive to health than cigarette smoking.

Thank you in advance for your materials. Your cooperation is greatly appreciated.

Sincerely,

Dan Bishop
President
NATIONAL FAMILY AND BUSINESS ASSOCIATION
